

## TIRE APPLICATION GUIDE

- If needed, all high speed over the road tires should be balanced before applying AmerSeal®.
- Some high speed tires may experience a slight vibration at highway speeds.
- **Caution: Do not over apply AmerSeal® to high speed tires. (Tires traveling at speeds above 40mph/65kph)**

## READ CAREFULLY BEFORE INSTALLATION

AmerSeal® Must be allowed to thoroughly coat the inside of the tire and rim before complete tire protection is achieved. It is important to either drive the vehicle or rotate the tire slowly several times after installation.

- Works with most low tire pressure indicator sensors.
- Not recommended for use with low tire pressure equalizer systems.

**Note:** Do not install in tires containing water, anti-freeze, calcium chloride, or any other liquid ballast or other sealants, as AmerSeal® is water soluble and may become ineffective.

## OVER THE ROAD TIRES

### HEAVY TRUCKS, SEMIS, MOTOR COACHES, & BUSES (Heavy duty tires 10 Ply or Heavier / 19.5 inch Rims or Larger)

Formula for tire sizes not found in this section: Tire Height x Full Tire Width ÷ (divided by) 10 = Ounces per Tire
